[AI Application Assistant](#) ✨

BWS GENIE

A beautifully branded web assistant that helps underrepresented entrepreneurs in Tulsa find and access business resources and actually use them.

The Problem

Resource Overload

Not Knowing Where to Look

Procrastination

Tulsa's entrepreneurial ecosystem is rich with opportunities, but a significant gap exists between the available resources and their actual utilization by underrepresented founders.

The Solution

Beautifully branded web assistant

Greenwood Guide is a visually appealing, culturally-inspired platform that resonates with the legacy of Tulsa's Black Wall Street

AI-powered application support

Greenwood Guide's AI assistant helps entrepreneurs craft compelling applications, reducing barriers to accessing resources

Browse resources by type

Users can easily navigate and discover relevant funding, mentorship, workshops, and other opportunities tailored to their needs

Reminders to reduce procrastination

Automated follow-up reminders encourage users to complete their applications and access the resources they need

Greenwood Guide is a transformative solution that combines the power of technology, cultural inspiration, and a deep understanding of the challenges faced by underrepresented entrepreneurs in Tulsa. By providing a centralized, user-friendly platform with AI-driven support, Greenwood Guide empowers founders to navigate and leverage the resources they need to succeed.

How It Works

The Mission

- **Close the gap between available resources and actual usage**

Many free and low-cost resources exist, but most entrepreneurs don't access them due to feeling overwhelmed, not knowing where to look, or not following through

- **Build an AI-powered assistant**

Leverage artificial intelligence to help entrepreneurs navigate resources and complete applications

- **Connect entrepreneurs to funding, mentorship, wellness, and workshops**

Provide a centralized platform that links founders to the support they need to succeed

- **Help them apply instantly**

Use AI to assist with writing bios, letters, pitches, and other application materials

- **Send reminders and encouragement to finish what they start**

Reduce procrastination and keep entrepreneurs on track to complete the resources they sign up for

The Experience

BWS Genie offers a clean, mobile-friendly user interface with neatly organized resource cards, convenient Save and Remind Me buttons, AI-powered application support, and a visually appealing brand inspired by the legacy of Tulsa's historic Black Wall Street.
